WORK EXPERIENCE

Independent Contracting - *FullStack Developer | worked for different companies as a fullstack/frontend developer*

Aug 2023 - Present (roughly 3.5 years)

IAABO Board 31 Website

- Rebuilding a legacy production website using **Next.js, TypeScript, and Tailwind CSS**, improving the site's maintainability, responsiveness, accessibility, and overall structure.
- Developed a custom **CMS and backend API** for managing dynamic organizational content including events, dates, locations, announcements, and other website information..
- Implemented technical **SEO and AEO improvements**, including metadata optimization, semantic HTML, heading hierarchy, and question-based content structure.

Elite Tree and Snow LLC

- Designed and developed a responsive business website from the ground up using **Next.js, TypeScript, Tailwind CSS, and DaisyUI**.
- Implemented customer communication functionality using the **Resend API**.
- Deployed and maintained the production website using **Vercel**.

ATP ExPhys LLC

- Integrated **Google Search Console** to monitor search visibility and website performance.
- Managed ongoing website content and updates. Acted as DBA and
- Created original photography and video content for the website and social media.
- Coordinated media sessions with business owners to produce professional visual assets for digital marketing.

Elms College Information Technology (IT) Internship

June-2023 - July-2023

- Set up initial hardware for new computers, entered BIOS for secure boot, set Admin/guest parameters
- Installed/Updated Windows on over 30 machines
- Helped troubleshooting computer problems (cant sign in, applications arent updated, restarting frozen screens)

Elms College Graphic Design Internship

June-2022 - July-2022

- Collaborated with groups to design and brainstorm logo designs for local business owners
- Had hands on practice communicating and working with Harmony House in designing a new platform for them to use and grow
- Worked in a fasted paced, deadline driven environment to create quality products for clients

Personal Projects - *FullStack | always working on improving my skills by creating, developing, and designing "pet projects"*

I am constantly working with new tools to challenge myself and stay familiar with new technologies. When I am not working on contracted sites I work on personal projects to learn/practice skills, like ecommerce, restfulAPIs, databasemanagement and more. I enjoy learning new ways to solve problems and streamline robust equations into simpler variants. I've created a catalog of websites and tools that I use outside of my career; (For example, during my time as a coach I created a website that I can feed data into and it will track and keep stats) I enjoy bringing my code into my pastime activities as it's a fun problem solving tool.

EDUCATION

Our Lady of the Elms

Bachelor of Science in Computer Science
Chicopee, MA | Jun 2020 – Apr 2024

Bachelor of Arts in Graphic Design
Chicopee, MA | Jun 2020 – Apr 2024
