SANTINO GIORDANO

Springfield, MA | 413-285-6188 | santinogiordano13@gmail.com | Portfolio

PROFILE

A Computer Science and Graphic Design graduate that has real world experience building responsive web applications and managing database content as a DBA. While using React, TypeScript, and Tailwind CSS, I've found success deploying and managing freelance websites. Experienced in developing full-stack applications, integrating third-party services such as Stripe, and deploying production level websites using Vercel. Strong focus on user experience, performance, and a scalable web architecture.

SKILLS

Programming Languages: JavaScript, TypeScript, HTML, CSS, React, Go, Node
Frameworks & Libraries: Next.js, Tailwind CSS, Express, Fiber
Tools & Platforms: Git, Vercel, Visual Studio Code, MongoDB Atlas, Adobe Creative Suite
Design: UX & UX Design, Responsive Design, SEO, AEO
Other: Fast paced learner, Desire to learn and grow

WORK EXPERIENCE

Independent Contracting - *FullStack Developer | worked for different companies as a fullstack/frontend developer, and part time Database manager*

Worked independently with multiple businesses to design, develop, deploy, and maintain modern web applications and business websites. I've built full-stack solutions using **Next.js, React, TypeScript, Tailwind CSS, Go,** and **MongoDB,** alongside experience working with legacy code of web applications for ongoing maintenance.

Developed and modernized websites for organizations including **IAABO, Elite Tree and Snow LLC, and ATP ExPhys LLC**, transforming legacy websites and business requirements into responsive, maintainable, and scalable applications. Responsibilities include: frontend development, backend/API development, CMS implementation, database integration, SEO/AEO optimization, content management, performance improvements, and deployment through **Vercel**.

I built a custom CMS for IAABO to manage dynamic website content such as events, dates, locations, announcements, and other organizational information. Modernized the site's legacy codebase by transitioning it toward **Next.js and TypeScript**, while improving its SEO structure and accessibility. Implemented technical SEO and AEO strategies, including improved metadata, semantic HTML structure, heading hierarchy, and question-based content designed to improve discoverability in search engines and LLM-powered search.

For small business clients, developed responsive websites from the ground up, integrated services such as the **Resend API** for customer communication, connected **Google Search Console** for website performance monitoring, and managed ongoing content updates. Also created and organized original photography and video content for web and social media, working directly with business owners to develop professional visual assets.

PERSONAL PROJECTS

Personal Projects - *FullStack | always working on improving my skills by creating, developing, and designing "pet projects"*

I am constantly working with new tools to challenge myself and stay familiar with new technologies. When I am not working on contracted sites I work on personal projects to learn/practice skills, like ecommerce, restfulAPIs, database management and more. I enjoy learning new ways to solve problems and streamline robust equations into simpler variants. I've created a catalog of websites and tools that I use outside of my career; For example, while coaching I created a website that I can feed data into and it will track and keep stats. It is what I use currently to publish game scores and stats. I enjoy bringing my code into my pastime activities as it's a fun problem solving tool.

EDUCATION

Our Lady of the Elms

Bachelor of Science in Computer Science
Chicopee, MA | Jun 2020 – Apr 2024

Bachelor of Arts in Graphic Design
Chicopee, MA | Jun 2020 – Apr 2024

OTHER EXPERIENCE

NCAA — Men's Basketball Referee | 2024 – Present
CYO — Senior Trainer for Youth Basketball Officials | 2023 – Present
Girls High School Varsity Volleyball Coach | 2022 – Present
CYO — Youth Basketball Coach (Grades 6–8) | 2022 – 2025
MIAA — Basketball Referee | 2020 – Present
